

WHY HUXBERRY?

Where Better Sleep Begins

Exceptional sleep is one of life's greatest luxuries. At Huxberry, we believe it should also be one of life's greatest certainties.

Through Furniture Palace's exclusive partnership with Huxberry, a premium Canadian sleep brand, East African homes can now experience world-class sleep innovation trusted by some of the world's finest hospitality destinations.

Every Huxberry mattress is thoughtfully engineered to help you wake up refreshed, restored, and ready for the day ahead. By combining advanced sleep technology, premium craftsmanship, and internationally certified materials, we create mattresses that deliver far more than comfort — they deliver confidence.

Confidence that every layer has been carefully selected for your wellbeing. Confidence that every material meets internationally recognized quality and safety standards. Confidence that every night's sleep is an investment in your health.

Why Choose Huxberry?

Choosing a mattress is more than selecting a place to sleep — it's choosing how you'll feel every morning.

With Huxberry, you enjoy:

- Premium Canadian sleep innovation
- Over 30 years of hospitality expertise
- Trusted by world-class 5-star hotels, including Jumeirah
- Internationally certified materials
- Advanced sleep technologies
- Sustainable and ethically sourced components
- Cleaner, healthier sleep solutions
- Exceptional craftsmanship
- Long-lasting durability
- Exclusive availability through Furniture Palace Kenya

Trusted by World-Class Hospitality

For over 30 years, Huxberry has been designing premium sleep solutions for luxury hotels and resorts around the world. Its expertise has earned the trust of prestigious hospitality brands, including iconic destinations such as Jumeirah, The Royal Atlantis, Dubai, and Shebara Resort, Saudi Arabia, where exceptional guest experiences begin with exceptional sleep.

Today, that same commitment to quality and innovation is available exclusively in East Africa through Furniture Palace Kenya.

Internationally Certified for Your Peace of Mind

Quality sleep starts with quality materials.

Every Huxberry collection is crafted using internationally recognized certified components that meet the highest standards for safety, sustainability, comfort, and environmental responsibility.

GOLS® Certified Organic Latex

Containing 98% certified organic natural latex, offering exceptional comfort, durability, breathability, and natural resilience.

CertiPUR-US® Certified Foams

Our premium foams are independently tested and certified to be made without:

- Formaldehyde
- Heavy metals
- Ozone-depleting substances
- Harmful chemical flame retardants

The result is a cleaner, healthier sleeping environment for you and your family.

GOTS® Certified Organic Cotton

Naturally breathable organic cotton creates a soft, luxurious sleep surface while supporting environmentally responsible production.

Responsible Wool Standard (RWS)

Responsibly sourced wool naturally regulates temperature and moisture, helping you stay comfortable throughout every season.

Sedex Membership

Across our manufacturing partnerships, Huxberry supports responsible sourcing, ethical labor practices, safe working conditions, and transparent supply chains.

Engineered for Better Sleep

Every Huxberry mattress is designed around one simple philosophy:

Better technology creates better sleep.

Depending on the collection, advanced features include:

- 7 Zoned pocket spring systems for targeted spinal support
- Premium organic latex comfort layers
- Advanced pressure-relieving memory foams
- Motion isolation to minimize partner disturbance
- Enhanced edge support
- Cooling technologies for year-round comfort of Energie grid and gel infused memory foams.
- Breathable comfort layers for improved airflow
- Premium quilted finishes for luxurious comfort

Every layer works together to deliver deeper, more restorative sleep — night after night.

DISCOVER THE HUXBERRY COLLECTION

Energie Grid™

Our most advanced sleep innovation.

The Energie Grid™ features an adaptive comfort layer made from Hyper-Elastic Polymer, an innovative material that instantly responds to every movement while maintaining exceptional support.

Why you'll love it!

- Adaptive pressure relief that contours to your body
- Superior airflow for cooler sleep with over 1400 open cells
- Hyper-responsive comfort that rebounds instantly
- Plush cushioned support
- 28cm cm mattress profile
- Premium organic cotton fabric
- Suitable for back, side, and combination sleepers

Perfect for customers seeking cutting-edge sleep technology with premium comfort.

21%

decrease in night awakenings

Exclusive GelFlex Grid instantly flexes to support all sleep positions for blissful, uninterrupted rest.

Up to 4x

cooler sleep

Cooler sleep means deeper sleep — and the GelFlex Grid is the only sleep innovation that achieves both.

40%

reduction in pain

Experience ache-free alignment. The GelFlex Grid cradles hips + shoulders, maintaining proper support everywhere else.

Huxberry Energie Features

How does it work?

With over 1400 individual air channels the GelFlex grid dissipates excess body heat, drawing it away from you so you never sleep hot!

HUXBERRY

Reinventing the Way We Sleep

Purple holds more than 30 patents for cushioning technology; the Grid is made from our proprietary SelfFlex polymer, the Purple Grid uses a repeating geometric structure to create cushioned comfort while maintaining support. It's truly unlike anything you've ever felt.
